General Safety Requirements

Driver will be disqualified if: not seated at all times, anything falls off of the tractor while on the track, or the driver is assumed to be intoxicated. All Youth Drivers MUST have a kill switch.

No Duals (Except for 4-wheel drive and MFWD classes) or chains allowed. All Exhibition pulls will be last in each class. First hook in the class does not have the option to repull UNLESS specified by the sled operator, or to settle full pulls. 75 Feet option for all pullers. If you go over the speed limit in speed limited classes, finish your pull at the required speed limit for the class.

Front of weights must be no further than 13 feet ahead of the center of the rear axle. Limit for 1959 and older tractors is 11 feet. Drawbar must be visible when backed up to skid for hooking.

Maximum of 100 pounds allowance overweight at scale allowed for each class. All pullers must weight at scales provided by sponsoring organization and go across scales before hooking in their class.
